Volume 41 1999

Index

Authors and subjects of articles in the body of the journal are indexed together. Co-authors of all articles are cross-referenced to the first author. Book reviews and abstracts are listed separately. A, annotation; E, editorial; L, letter.

Key to issues and pages

Issue	*Pages*	*Issue*	*Pages*	*Issue*	*Pages*

A

Abstracts

HART H

An audit of children referred with suspected epilepsy, 431

Effects of sleep position on infant motor development, 431

ACCARDO PJ *see* LINDSAY RL

ADAMS R *see* BUTLER C

ADHD

Children with, Speech discrimination and phonological working memory in, 335

Head circumference in ELBW babies is associated with learning difficulties and cognition but not, in the school-aged child, 375

Quality of general movements in infancy is related to neurological dysfunction, and aggressive behaviour, 381

Aetiological findings and associated factors in children with severe mental retardation, 233

Age-related walking in children with spina bifida, 446

ÅKEFELDT A ET AL.: A woman with Prada–Willi syndrome gives birth to a healthy baby girl, 789 (L)

Alain Picard replies, 143 (L)

ALBRIGHT AL *see* BARRY MJ

ALLIBRIO G *see* BOTTOS M

Allodynia, Painful seizures with, in an 11-year-old boy, 704

American Academy for Cerebral Palsy and Developmental Medicine, San Antonio, Texas 1998, 140 (Report)

American Academy for Cerebral Palsy and Developmental Medicine, Washington, DC, 1999, 849 (Report)

AMESS PN ET AL.: Early brain proton magnetic resonance spectroscopy and neonatal neurology related to neurodevelopmental outcome at 1 year in term infants after presumed hypoxic–ischemic brain injury, 436

AMIEL-TISON C *see* AMESS PN

ANDREWS K and FITZGERALD M: Cutaneous flexion reflex in human neonates: a quantitative study of threshold and stimulus-response characteristics after single and repeated stimuli, 696

Angelman syndrome, Visual evoked potential evidence of albino-like chiasmal misrouting in a patient with, with no ocular features of albinism, 633

Annotations

Ataxia of parietal lobe origin, 353

Characteristics of cranial ultrasound white-matter echolucencies that predict disability: a review, 136

Children's sleep disorders: modern approaches, developmental effects, and children at special risk, 568

Episodic dyscontrol syndrome, 786

Factor-V Leiden mutation: a risk factor for cerebral palsy, 781

Familial temporal-lobe epilepsy, 501

Idiopathic toe-walking: a review, 846

Impact of attentional dysfunction in dyscalculia, 639

Melatonin treatment of sleep–wake cycle disorders in children and adolescents, 491

New surgical interventions for cerebral palsy and the place of gait analysis, 424

Pharmacological management of convulsive status epilepticus in children, 207

Significance of oral health in persons with Down syndrome: a literature review, 275

Sleep disorders in visually impaired children, 348

Sleep problems in autism: prevalence, cause, and intervention, 60

Supraspinal pathways and the development of muscle-

tone dysregulation, 708
Antiepileptic, drug withdrawal, Factors associated with relapse after, in a selected population with partial epilepsy, 643 (L)
Apneustic breathing in children with brainstem damage due to hypoxic–ischemic encephalopathy, 560

Mac Keith Meetings

Disordered Auditory Processing (Closed meeting)
Royal Society of Medicine, London. 13th December 1999
Organised by Anne O'Hare

Clinical Neuropsychiatry of Childhood (Open meeting)
Royal Society of Medicine, London. 16th February 2000
Organised by M Prendergast

Management and Treatment of Autism (Closed meeting)
Royal Society of Medicine, London. 20th March 2000
Organised by G O'Brien

Young Adults with Disability: Where Are the Services?
Royal Society of Medicine, London. 22nd May 2000
Organised by Richard Morton

Incontinence Management: Practical Aspects of an Important Quality of Life Issue
Royal Society of Medicine, London. 16th June 2000
Organised by Martin Bax
